

# LIBRARIES OF THINGS EUROPE

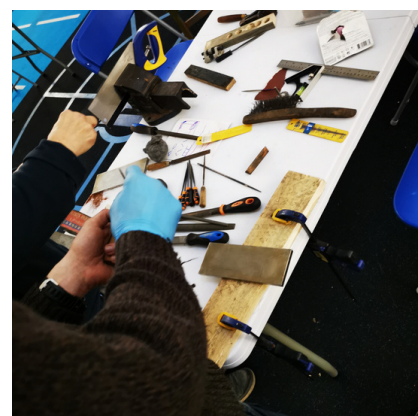

Project number: 2020-1-UK01-KA227-ADU-094688

Project Duration: 2021-03-01 – 2023-02-28

## Events Galore

From August - November all partners have been running a series of workshops in our respective countries covering sewing, wood re-use, tool maintenance and furniture upcycling. Partners have been using skills learned during our first learning exchange in Stirling to deliver these workshops to other groups and individuals interested in developing their skills and starting their own LOT. We'll also use these to create case studies for the Libraries of Things guide we will be creating further on in the project.

Co-funded by the  
Erasmus+ Programme  
of the European Union

# Learning Exchange Lithuania

In October partners travelled to Lithuania for the second of our LTTA events to share and learn from each other. It was wonderful to have everybody in the same room in person again.

In October partners travelled to Lithuania for the second of our LTTA events to share and learn from each other. It was wonderful to have everybody in the same room in person again.

We made a visit to Lobių dirbtuvėse (Treasure Workshop). This project teaches woodworking skills to people with special educational needs. They sell items they make, and we the partners who visited bought them!

During the LTTA we also made a plan for the intensive LoT training day. Watch this space for more information on this.

## Coming up... training and mentoring

Coming up in the new year each partner will be running the LOT training session developed during our LTTE. Each partner is going to be working with 4 projects in their respective countries to offer this training along with 1:1 mentoring sessions to hopefully lead to the development of new Libraries of Things.

Co-funded by the  
Erasmus+ Programme  
of the European Union
